

Open Arms Connections

Keeping You Informed

September 2023

Recently this little guy was placed in our care. This beautiful blue eyed boy with the sweetest smile was exposed to meth during pregnancy.

Because of this he has a hard time sleeping. The Open Arms Case Manager brought him to the office for the day to give the foster parents a little break. Our staff was able to love on him and he got a good nap while at the office. This little guy is a great reminder of what Open Arms is all about, being a place of hope and a brighter future.

*Fear not, for I am with you; be not dismayed, for I am your God; I will strengthen you, I will help you, I will uphold you with my righteous right hand.
Isaiah 41:10*
